

Autumn 2023 2nd Half Term – Year 3

Welcome back to the second half of the Autumn Term. We hope you had an enjoyable but restful break and feel ready for the busy term ahead. The children have settled into their new classes really well and have taken the new challenges of Key Stage 2 in their stride! The children thoroughly enjoyed last term's Art Week and are looking forward to Design technology Week next week. We are collecting small cardboard boxes such as mini cereal boxes, cup-a-soup boxes or coffee sachet boxes for the children's design projects. A gentle reminder that we ask for a £5 donation from each child each term to help to cover some of the costs associated with the creative projects that the children enjoy across the year. Payments can be made on School Gateway.

We are welcoming Mr Luft to our team, who has started as Sundew's class teacher this term.

As we move into winter all children are expected to have a warm, waterproof coat with them in school every day and a labelled Hilltop water bottle.

PE days this half term **Monday and Tuesday** – Bracken and Sundew **Tuesday and Thursday** – Heather

English

- ★ **Writing** – the children will spend this half term focussing on writing creative, well structured sentences based on our class read *The Boy with the Bronze Axe*. They will complete various creative writing tasks inspired by this book, starting with using adjectives and adverbs to describe a setting.
- ★ **Reading** – our home reading aim is for children to be heard reading at least four times a week, if they do this across ten weeks they will earn their bronze reading badge. Our class reading text will continue to be *The Boy with the Bronze Axe* by Kathleen Fidler.
- ★ **Spellings** – please continue to support your child with their five weekly spellings in their blue spelling books.

Maths

Addition and subtraction

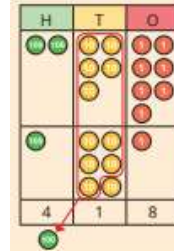

We will be revisiting our addition and subtraction number facts, building up to solving addition and subtraction problems with up to three digit numbers.

We will introduce column methods and teach strategies for exchanging as shown in the image.

By this stage pupils need to be able to add and subtract single digits mentally without counting on. Frequent practise on Numbots will help to consolidate this knowledge and greatly reduce the stress of calculating more complex addition and subtraction equations.

Home learning expectation

Children should continue to practise playing on TTRockstars at least once a week and NumBots at least once a week – this is replacing *MyMaths* as their set homework.

Foundation Subject focus areas

- ★ **Geography and History:**
Stone Age Britain into Iron Age Britain, introducing the Iceni Tribe and Boudicca
- ★ **Computing:**
Programming
- ★ **RE:**
Islam: Mosques and Islamic Art
- ★ **PE:**
Gymnastics
- ★ **PSHE:**
Attitudes and perspectives
- ★ **DT Week focus:**
Wheels and Axels
- ★ **Science:**
States of Matter
- ★ **Music:**
Rock and Roll (walking base lines)
- ★ **French:**
Describing using colours, sizes and shapes

Foundation Subject big questions can be found on the school website.
